

## SEAT OF POLE GOVERNMENT MOVED FROM WARSAW

### EYES OF WORLD ON 'PROHIBITION IN U. S.: JOHNSON

"Pussyfoot" Johnson is  
Confident of Dry  
World, He Says.

William E. (Pussyfoot) Johnson, of London, with his temperance message and Kable Brothers Company Band shared equal honors at the Rock River Assembly Sunday afternoon and evening.

Johnson followed a thirty minute concert by the band in the afternoon, and both the speaker and the Mt. Morris musical organization were greeted by about 5,000 people.

Johnson is a convincing speaker and he has a message, but the principle theme of his talk was the plans for making the world "dry." The speaker has returned from about two years of work abroad, principally in England, where he lost an eye in his endeavor to make that country "dry." He was the victim of a mob. After he got through with his temperance work in England he visited several other countries and held conferences with some of the men in authority with a view of completing plans for a general temperance campaign through out Europe.

**For Local Option Laws.**  
He declared that in several of the more prominent countries plans were already in operation to give to the countries in question the benefit of a local option law. Scotland was ready for local option and Ireland was getting into line for something along that line.

Johnson declared that the whole world was watching America at this time and if prohibition made good here then Europe would jump into the "dry" column within ten years; but, if prohibition failed in America then prohibition would die and would remain dead in Europe for 100 years.

"Pussyfoot" Johnson is not an orator. He is, however, a speaker who impresses one with his sincerity. To many he was a disappointment, but all agreed with his doctrine. He discussed the subject of temperance in the old fashioned manner, so common to all temperance workers. He drove his points home. Naturally, the people of America take but little interest in temperance campaigns now for the eighteenth amendment to the constitution has solved the question.

**Was Once Detective.**  
The speaker has not always been a temperance worker, but in the early days of his career he was a federal detective and while engaged in that work in the western section of this country he was named "Pussyfoot" because of the manner in which he silently crept into the camp of the law violators and secured them for so to speak. He came pussyfooting, so to speak, but in this manner he was successful in bagging big game. He has, however, both a national and an international reputation and is an asset and not a liability towards making him a favorite lecturer.

**Heard Fine Band.**  
The people who attended the Assembly Sunday evening now realize that the little town of Mt. Morris over in Ogle has a real band. The concert given last evening by this neighboring musical organization was equal to concerts given by bands of a national reputation. Prof. Francis A. Myers, bandmaster, has splendid control of his organization. In time

### Prisoner Says Boy Will Be Surrendered to Parents by Night

Philadelphia, Aug. 7.—Augusto Pasquale held in connection with the kidnapping of Blakeley Coughlin, enjoyed last night in a cell in the city hall his first night's full rest since his capture last Monday at Egg Harbor. His first question to the "kitchen" this morning was whether there had been any response to the announcement that he proposed to inform on the members of the band if the baby was not returned in 24 hours. When told that the child was still missing he appeared disappointed but declared "they will come across".

### Report Thieves at Work in Lowell Park

Sneak thieves are again active in Lowell park according to reports received by the police department. Saturday several Polo Boy Scouts who are in camp at Hazelwood, went to the park for their daily swim. While in the water their clothing was searched, a watch, some money and a Boy Scout sash being taken. The matter was reported to the police who are investigating.

### HOSPITAL BOARD MEETS

A regular meeting of the board of Katherine Shaw Bethel hospital will be held at 9:30 tomorrow morning.

Tatum told police that Leroy was jealous of him because he was friendly with Katherine some time ago.

### Forty-Six Days in Ottawa Witness Chair

Occupying the witness chair daily since May 27, with the exception of a week, when an adjournment was taken, is the testimony record Captain George J. Lyon of the U. S. army has made in the LaSalle county Circuit Court. Captain Lyon has been giving testimony in the hearing before the master in chancery of the Marshalls Land and Water Power company against the Northern Illinois Light & Traction company to collect an alleged water rental. Captain Lyon occupied the witness stand for a period of forty-six days almost consecutive of six hours each. In all he testified continuously for 276 hours, or 16,560 minutes. Captain Lyon has been giving testimony as an expert engineer concerning the water power, etc.

### Amboy Condensory is Nearing Completion

Almost all of the machinery for the new Amboy condensory has arrived, and experts from Chicago began work Thursday morning installing the more important pieces. It is expected that the factory will be ready for business in the near future.

Edwin Barlow has returned home after a six months' visit in California.

### WEATHER.

MONDAY, AUGUST 9, 1920

**B. Associated Press Leased Wire**  
Illinois—Unsettled weather tonight and Tuesday, probably local thundershowers; not much change in temperature.

**Chicago and Vicinity**—Unsettled weather tonight and Tuesday, probably local thundershowers; not much change in temperature; moderate south to southwest winds.

### LOCAL TEMPERATURE

The range of the local temperature during the 24 hours ending this morning was between 95 and 54 degrees above zero. Less than 2 of an inch of rain fell in the showers since Saturday morning.

### NOTED ENGINEER IN DIXON WORKING FOR BLACKHAWK HIGHWAY

George E. Kessler Wants  
Scenic Route Completed Quickly.

George E. Kessler of Kansas City, probably the best known highway engineer in the country, is spending five days of his annual vacation in Dixon with his family and while here is working for the interest of the Blackhawk Trail a proposed highway between Dixon and Rockford. Mr. Kessler was in Dixon two years ago and so well was he impressed with the natural scenic beauty, that he returned last week to spend a part of his vacation in the Rock River valley.

While his duties in connection with the Blackhawk trail are advisory only, those who head the project feel that they have secured the services of the most competent man in the country in this line. Mr. Kessler gained country wide repute with his city plan of drives at Kansas City which are the best in the United States. He not only planned the boulevards and drives but superintended every detail of construction.

**Interested in Trail.**  
The Dixon Chamber of Commerce some time ago became interested in the Black Hawk Trail project, realizing that it was one of Dixon's greatest assets and a committee has been working continuously toward its perfection for many months. The Chamber is intent that the movement be completed as soon as possible and are taking up the work of promoting the route between this city and Rockford.

No definite route has been decided upon as yet and it will probably be some time before this part of the program is completed. Mr. Kessler is going over the entire route and conferring with parties who are vitally interested in its promotion. He will report his findings to the committee of the Dixon chamber before the program for adopting a definite route is completed.

### ROOSEVELT BACKING UP COX IN MAKING LEAGUE REAL ISSUE

Vice Presidential Nominee Accepts Party Candidacy.

By Associated Press Leased Wire.

Hyde Park, N. Y., Aug. 9.—Franklin D. Roosevelt, in a formal address accepting the democratic vice presidential nomination at his home here today, joined with his chief, James M. Cox, in accepting the challenge of the Republicans to make the League of Nations one of the principal issues of the national campaign.

"The Democratic party," he said, "has offered to this nation a treaty of peace which to make it a real treaty for a real peace must include a League of Nations."

"Today," he continued, "we are offered a seat at the table of the family of nations to that end that smaller peoples may be truly safe to work out their own destiny. We will take that place."

I say so because we have faith—faith that this nation has no selfish destiny, faith that our people are looking into the years beyond for better things and that they are not afraid to do their part.

He declared that it is idle to pretend that America entered the war as a "mere act of self defense" and that "we must add this positive declaration of our own will, that the world shall be saved from the repetition of this war."

The League of Nations is a practical solution of a practical situation, he said. It is no more perfect than the original constitution which has been amended 18 times and will soon we hope be amended the nineteenth, was perfect. It is not anti-nation; it is anti-war.

**Two Dixon Lawyers Committee Chairmen**

(Special to The Telegraph.)  
Springfield, Ill., Aug. 9.—Logan Hay of Springfield, president of the Illinois Bar Association, has announced the appointment of committees for the year 1920-21. The following from Dixon were appointed:  
Committee on Admissions—H. C. Warner, district chairman.  
Committee on Grievances—Sixth District, George C. Dixon.

### TO DIXON HOSPITAL.

Miss Avis Joynt, daughter of Mr. and Mrs. William Joynt, residing near Polo, was taken to the Dixon hospital yesterday for treatment.

### ATTACKING WARSAW

Leon Trotzky, commander-in-chief of the Bolshevik armies, who is directing the drive on Warsaw and typical soldiers of the Red "Army-in-Rags" which turned back the Polish army after it had taken Kiev. The Reds have pursued the Poles west until now almost half of Poland is behind the Red lines. Map shows the territory over which the armies have been fighting. The Germans have sent troops to East Prussia to guard their frontier. From Moscow to Warsaw is approximately 700 miles.

### PREMIERS FAILED TO AGREE ON MEASURES OF AID TO POLE ARMY

Will Meet Again This  
Afternoon to Consider  
Subject.

### BULLETIN.

Paris, Aug. 9.—The Polish general staff has definitely rejected the offer of General Weygand, of the French army to take command of the Polish army if granted full authority, according to a report from the Anglo-Polish mission in Warsaw. Both G. Weygand and General Delma Radcliffe, of the British military mission have been insisting that the situation was not hopeless and could be relieved if their recommendations were carried out.

Hythe, Eng., Aug. 9.—By Associated Press. When Premier Millerand of France and Lloyd George of Great Britain met again this morning in continuation of their conference here over the Russian-Polish situation they had before them the detailed report of Marshall Foch and Field Marshall Wilson dealing with the extent of the military, naval and economic assistance which France and England can give immediately to Poland.

Having decided that actual war shall not be waged on Russia, the premiers were confronted with a most difficult problem. It is known they are inclined to give Poland every aid within the limit of this decision. In French and British circles here, however, the word "defensive" is emphasized in connection with the proposed plans and it is pointed out that France and Great Britain wish it distinctly understood that they are not contemplating offensive measures against Russia.

After a meeting lasting all the morning, the premiers at 1:30 o'clock decided to adjourn for luncheon and to prolong their conference throughout the afternoon.

Although no official announcements were made, it was declared in a reliable quarter that the premiers had failed to reach an agreement on the character of the aid to be given Poland.

**Victory Medals to  
Be Issued in Dixon  
Tuesday and Wednes.**

Ex-service men of Dixon and vicinity will have an opportunity tomorrow and Wednesday to get the handsome Victory Medals which the government will present to every man who was in the service, either across seas or on this side. C. G. Mathys, representing the War department, will be at the G. A. R. rooms in the city hall tomorrow and Wednesday to issue the medals, which are not the bronze buttons which have been mentioned repeatedly heretofore.

It is announced that if ex-service men can not get to the city hall on the days mentioned they can send their discharge certificates with some one and thus get the medals. All soldiers must present discharge certificates to get the medals, and it is announced all discharges will be returned.

### DEFENDING WARSAW

General Haller (left), who commands the Polish army in which hundreds of American Poles enlisted, has been placed in charge of the defense of Warsaw. General Pilsudski (right) is the commander-in-chief of the Polish armies.

### INSANE, FEEDS HORSE POISON, TEARS UP VINE

George Rollins' Mind  
Gave Away During  
Sunday Night.

George Rollins, better known as "Rocky," a citizen of Dixon for over 50 years, while laboring under a mental strain last night fed his horse five handfuls of arsenate of lead, the animal dying during the night from the rank poison. He had started tearing out shrubbery and vines at his home on West First street this morning when the sheriff's forces were called to take him in custody.

He was taken before a commission of physicians in the county court at once and adjudged insane. Sheriff Schoenholtz left at noon, taking him to the Watertown hospital for treatment. Mr. Rollins some years ago was said to be the strongest man in this section of the country, but has suffered a general breakdown in health in the last five years, his mental condition being considerably weakened of late.

Miss Anna Marie Worthington is assisting for a few days at the Kennedy music store.

### W. FRANKFORT MINERS RESUME WORK THIS A. M.

25 Prisoners Held for  
Parts in Recent  
Disorders.

By Associated Press Leased Wire.  
West Frankfort, Ill., Aug. 9.—The seven large coal mines in this vicinity, employing about 3500 men, resumed operations today and West Frankfort was normal after the sporadic anti-Italian fighting which began Thursday night.

Brigadier General Frank P. Wells, in charge of troops here said 25 prisoners under arrest in connection with the uprisings in which Louis Carneri was killed and about 40 persons injured, would be held pending a thorough investigation into their alleged part in the rioting. J. M. Pico, Italian consul at Springfield, who is here investigating the trouble, asserted a claim for \$5000 on behalf of Carneri's widow would be presented to the federal government. He said a total claim of \$20,000 for property damage also would be presented.

John Brader and family, of Oregon, attended the Assembly Sunday.

### ENGLAND AND FRANCE IN CONFERENCE TO EXTEND 'DEFENSIVE' AID TO POLES

Advancing Reds Capture Two Towns  
Nearer Capital.

By Associated Press Leased Wire

London, Aug. 9.—The Polish government is leaving Warsaw, its capital it is asserted in a wireless dispatch from Moscow received here this afternoon.

The place to which the government is being removed, the message says is Karlish.

Karlish, mentioned in the foregoing, does not appear on available maps. It may be that Kalisz is meant. This town the capital of the province of Kalisz is about 150 miles southwest of Warsaw, close to the old German border.

**All Legations  
Leaving Warsaw**

Warsaw, Aug. 8.—(By Associated Press)—All foreign legations in Warsaw left for Posen tonight on a special train. John Campbell White, secretary, and J. Pierpont Moffat, third secretary of the American legation and the military attaches will remain in Warsaw for the present, but the rest of the personnel left on the special last night.

The only American women remaining in Warsaw are a few Red Cross nurses and some Y. M. C. A. workers.

### Przasnysz Falls to Soviet Hordes

Warsaw, Aug. 8.—11:00 p. m.—(By Associated Press)—Przasnysz, a city about 41 miles directly north of Warsaw, has been captured by the Bolshevik cavalry, which is sweeping in broad lines westward along the Prussian frontier, according to an official statement issued here tonight. Smaller detachments are approaching Mlawa, about nine miles further west, and some have been reported near Ciechanow still nearer this city. This is one of the most rapid strides the soviet forces have made since they crossed the Orzyc river in their push designed to cut the Warsaw-Danzig railway.

### Sokolow Taken Moscow Announces

London, Aug. 9.—Russian Bolshevik troops have broken into the town of Sokolow, about 40 miles east, north-east of Warsaw and have captured several points south of Brest-Litovsk, according to a statement issued in Moscow yesterday and received here by wireless.

At Malkin, a railroad junction on the Bug river about four miles south-east of Astrow, the Bolsheviks have beaten off fierce counter-attacks by the Poles, the statement says. It adds that soviet troops on the northern front are successfully advancing toward the Narew river.

### Reds Cut Railroad; Hard Fight Ensues

By Associated Press Leased Wire

Warsaw, Aug. 8.—(By Associated Press)—Soviet forces striking westward from the vicinity of Brest-Litovsk in their great encircling movement, have cut through the Polish lines and crossed the railroad running between Sokolow and Siedlce. They reached a point west of Sokolow, but were there counter-attacked, and violent fighting is proceeding says an official statement tonight. There is heavy fighting along the Bug river from Drichczyn to Woldzibir-Zwoly, where the Bolsheviks are being held. In the fighting along the northern front the Poles have in general the advantage.

### Foch Thinks Poles Can Yet Stem Advance

By Associated Press Leased Wire

London, Aug. 9.—Poland is still far from being beaten in the opinion of Marshal Foch, as expressed in an interview with the Exchange Telegraph company's correspondent at Hythe. Providing Poland's forces and her military material are quickly organized, the marshal is quoted as saying she may yet be able successfully to defend her frontiers.

### Duroc Hog Sale in Dixon Tuesday P. M.

The largest Duroc hog in the state will be exhibited at the Rock River Breeders' pavilion in Dementown tomorrow in connection with the E. M. Detweiler sale of 40 head of pure bred Duroc hogs. It is expected a large crowd of buyers will attend the sale.

### Bad Fire Raging at Joliet Penitentiary

By Associated Press Leased Wire

Joliet, Ill., Aug. 9.—Fire is raging at the Illinois state penitentiary. The main shop of the chair factory is doomed. Flames have attacked a second shop of the chair factory and other buildings are ablaze. Convict firemen and two companies of the Joliet city department are fighting the blaze which despite their efforts, is continuing to spread. There is no disorder at the penitentiary.

Men in the shops where the fire broke out and in other parts of the prison yard have been marched to their cells. Cause of the fire has not been announced.

### IN BEAR'S GRASP

BY ASSOCIATED PRESS.

Russian Bolsheviks apparently have broken the Polish lines near the East Prussian frontier and Soviet cavalry are executing a great encircling movement north of Warsaw. In the center of the Polish front the Soviet armies seem also to have torn a great gap in the defenses of Warsaw. Przasnysz, a city 41 miles north of Warsaw has been occupied by these advance guards of the Bolshevik horde which have passed on and are reported to be approaching Mlawa to the west and Ciechanow to the southwest. It would seem that the Soviet horsemen are advancing almost without serious opposition.

On Friday the Bolsheviks were reported fighting the Poles near Myszyniec near the East Prussian border. When they broke through is not known but it appears they have gained at least 10 miles in the last three days. Polish troops have been entrenching their lines east of Mlawa which is situated on the railroad line running from Warsaw to Danzig. It is believed they will make a desperate effort to prevent the capture of the city by Soviet armies.

Coinciding with the Bolshevik advance on the north, the Polish lines from south of Ostrow to West of Brest-Litovsk have been forced back. Soviet troops have forced their way into Sokolow and are reported to be fighting east of Siedlce. The Bolsheviks are also said to have taken Ruzsacz, west of Brest-Litovsk, in this region they are said to have control of the road leading westward from Brest-Litovsk to Biala.

Further south there has been serious fighting and important successes are claimed by the Bolsheviks.

Great Britain and France are prepared to take instant action against the Bolsheviks as a consequence of the latter's refusal to grant Premier Lloyd George's request for a ten day truce with the Poles. Mr. Lloyd George conferred with Premier Millerand of France at Hythe, England, yesterday and heads of the British army and navy were closeted with Marshall Foch of France at the same place until an early hour this morning. Mr. Lloyd George was to have made a statement in the British House of Commons today and it is expected he would outline his proposed course of action. Late advices, however, state he will defer his declaration until tomorrow.

Polish Plenipotentiaries will cross the fighting zone east of Warsaw late today on their way to Minsk, where they will begin armistice and peace negotiations. The conference at Minsk will begin on Wednesday according to present plans.

Fred Embody and family, of Sterling, were here for the Assembly Sunday.

## Today's Market Report

(By Associated Press Leased Wire.)

### GRAIN MARKETS ADVANCE, THEN FALL THIS MORN

### Bullish Sentiment Was Checked By Reports of Rains.

By Associated Press Leased Wire  
Chicago, Aug. 9.—Higher prices for wheat resulted today from European war developments. Buying, however, was of only a scattered sort and the advance was not well maintained. Extreme weakness of sterling exchange had a tendency to check bullish sentiment. Opening quotations which ranged from 2c to 3 1/2c higher, with Dec. 2.35 to 2.36 and March \$2.39, were followed by a moderate reaction. Rain reports from Illinois largely counter-balanced in the corn market the bullish effect of war talk. After opening unchanged to 2 1/2c higher, including Sept. at \$1.45 1/2 to \$1.49 and Dec. \$1.23 1/2 to \$1.24 1/2, prices bulged all around, but then lost nearly all the advance.

Oats were governed by the action of corn, starting 3/4c to 5/8c higher. Sept. 73 1/2 to 74 1/2c, hardening still more and then receding to below the initial figures. Strength in the hog market kept provisions steady. Demand, however, was lacking.

### BROWNS LICKED BEFORE SMALL PAW PAW CROWD

### About a Hundred Fans Saw Dixon Lose 12 to 11 Sunday.

In a poorly attended game and one that was noticeably lacking in interest, the Dixon Browns were defeated at Pawpaw yesterday afternoon by a score of 12 to 11. Up until the ninth inning the game was fairly well played, despite the attendance of about one hundred people.

Simpson pitched for Pawpaw and twirled a fair class of ball up to the latter innings. Elliott started for Dixon but retired at the close of the seventh, "Buck" Lightner finishing the game. When Elliott retired the count stood 7 to 4 in favor of Pawpaw. Before Lightner had secured his control and the location of the plate five runs had counted. He hit two men, walked one, two secured long hits and another lost the ball in a corn field with a long drive which went for a home run.

In the ninth, the Browns came back strong and scored seven runs in the one inning. Elliott came to bat twice in the ninth, securing hits both times and scoring on each trip to bat. Next Sunday the Browns go to Lee and meet the team from that town.

## LIKENS PICNIC OF AMERICAN LEGION TO WORST DAYS OF ROME

### Sterling Preacher in Re- buke to Legion and Authorities.

Branding the Sterling American Legion picnic held at Mineral Springs on Thursday afternoon as a drunken orgy in which gambling and drinking were the predominating features, Rev. H. A. Studebaker in a communication to the Sterling Evening Gazette gives a scathing rebuke to the organization of ex-service men.

Rev. Studebaker likens the event to the days of lustful Rome and denounces the officers of the law, especially the state's attorney, for failing to put a stop to the open and flagrant violation of the law. His version of the picnic as an eye witness is given in the following communication:

Most Demoralizing  
"Editor Daily Gazette:

"The orgy of lust, drinking and gambling that characterized the stag picnic yesterday at Mineral Springs Park should make every decent citizen of this community blush for very shame. It was a revival of the worst days of lustful Rome in the heat of Nero's unbridled passion. That such an open and flagrant violation of the law should be permitted under our very noses is enough to rebuke us in the eyes of all thinking men, but that the officers of the law should have been there and made no protest is sufficient ground for impeachment. That the state's attorney should have been present and done nothing proved he is either a coward or in league with the devil."

"It was demoralizing in the extreme. The air was full of the curses of half drunken men, the grass became the bed of those whose minds drink had addled. Small boys witnessed these scenes and heard the vilest language man can utter. Gambling was open, hundreds of men stood or sat in groups betting on the turn of the dice. Before these drunken and shameless men, a woman suddenly appeared dancing in a suggestive manner the dance of Salome or some such rot. Men howled like awakened brutes. This all in the very shadows of Christian churches and homes. Oh! Shame on us all. Surely this is not the American Legion at its best. Surely this can not express the real spirit of the boys of the great war. It was a black day in the annals of this community. Paganism at its worst can think of nothing more demoralizing. May we never witness such another day and may shame cover us all that it was permitted this once."

"I am writing these words not as representative of any organization, but purely on my own initiative and as a result of what I saw and heard. My soul can not rest in peace until I have uttered my rebuke in a public way."

H. A. Studebaker.

First Plow Makers  
in State of Illinois

William C. Andrus of Grand Detour called at The Tribune office to leave with the editor some rare old pictures of pioneer people of that locality, and incidentally to talk old times, which interested both of us. He touched upon one point which will interest every farmer in this section.

His father and John Deere were partners in the plow trade in Grand Detour in 1837. He helped John Deere make the first plow made in Illinois. John Deere was a blacksmith and he fashioned a plow. This he turned over to Major Andrus who knew of a grindstone with a farmer several miles away and he took the plow over there, ground and polished it on the grindstone and returned it to the shop. The plow made a great hit. It established two big fortunes and made both men famous. Very soon a grindstone was bought and a sweep was established to which a horse was hitched and the new grindstone was turned by that power. You who use the tractor, did you ever stop to ask who started the plow industry in this great country of ours? It was Major Andrus, father of our visitor, and John Deere.—Sycamore Tribune.

### Recalls Ball Games Here Many Years Ago

A citizen of Hammond, Ind., who signs himself "Uncle John," recalls a ball game played in Dixon many years ago in the following contribution to the "Do You Remember Way Back When" department of the Wake of the News in this morning's Chicago Tribune:

The Rockford baseball team traveled forty miles overland on a hay rack to Dixon, Ill., to play

the Dixon Browns and Al Spaulding pitched for Rockford?

"W. B. S.55 of Dixon also has a 'memory' in the same column, as follows:

Ross and Gossage were the big dry goods merchants of Chicago, located on Lake street west of La Salle, and Potter Palmer ran the "Dollar Store" on Lake street near Clark?

## GEN. WOOD TO DENVER; STRIKE CRISIS EASIER

### No Attempt to Attack Cars Operated By Strikebreakers.

BULLETIN  
By Associated Press Leased Wire

Denver, Colo., Aug. 9.—The executive committee of the Tramway Workers union at a meeting today appointed a committee of three to call upon Frederick W. Hild, general manager of the Tramway, and inform him the striking tramen would go back to work. Henry Silberg, president of the Union, said there were no restrictions.

The executive committee abandoned its previous position that the men would go back only if they were permitted to return in a body and the strike breakers were discharged.

Denver, Colo., Aug. 9.—Under the protection of nearly 800 army troops resumption of the street car service was gradually extended today with strike breakers manning the cars. No attempt was made to attack the cars yesterday when the first attempt was made to attack the cars yesterday when the first attempt was made to operate since the cessation of rioting. Armed soldiers rode on each car and an automobile load of armed soldiers followed behind.

Counsel for the strikers Wayne C. Williams predicted that the strikers would decide to return to work today despite their decision yesterday not to return unless all the strikers were taken back and all the strikebreakers discharged.

Sixty cars were operated yesterday and a few more today. Normal service requires 325 cars.

Major General Leonard Wood and his staff were to arrive in the city today, according to reports, although Colonel C. C. Ballou, in command of the troops here, said he had received no official notice. Reservations were made yesterday at a hotel for General Wood.

Seven officers of the tramway men's union, are to appear before District Judge Greely W. Whitford this afternoon to be sentenced for contempt for calling the strike in violation of an injunction issued several weeks ago, forbidding such action.

Mrs. Louise P. Steel has returned from Chicago.

Rag rugs often have a limpness after washing that makes them rather horrible and easily kicked up.

A little starch added to the rinsing water will help to give body and straightness to small rugs.

Put the starch in the last rinsing water, wring the rug carefully and pin on the line with plenty of pins.

If the rug is folded with the long edges together to wring and hung on the line with the long edge pinned the rug will be straight and even when dry.

**Menu For Tomorrow.**  
BREAKFAST—Cantaloupe, cereal with top milk, toast, coffee.  
LUNCHEON—Salmon salad, hot rolls, apple pudding, tea.

**DINNER—**Baked beans, cold sliced baked ham, vegetable salad, cinnamon toast, watermelon cones, iced tea.

## My Own Recipes.

On hot nights nothing tastes quite so good as a dinner that savors of a picnic. The cinnamon toast is the only thing that requires preparation at the dinner hour and that is only a matter of minutes.

## APPLE PUDDING.

6 apples.  
½ cup sugar.  
1 tablespoon butter.

## BATTER.

½ cup milk.  
1 cup flour.  
1½ teaspoons baking power.  
1 tablespoon melted butter.

1 egg.  
½ teaspoon salt.

Paré, core and quarter apples. Cook with as little water as possible. When nearly done add sugar and butter. Turn into a buttered baking dish. Cover with batter made as follows: Beat egg until light. Add milk. Sift flour, salt and baking powder together. Add to first mixture. Add melted butter. Bake 15 or 20 minutes in a moderate oven. Serve with sugar and cream.

## CINNAMON TOAST.

Slices of fresh bread.  
4 tablespoons butter.  
1½ teaspoons cinnamon.  
3 tablespoons light brown sugar.  
Toast bread quickly. Cream butter and add sugar and cinnamon well mixed. Spread toast with mixture. Put toast back in toaster until the mixture is quite melted and serve at once.

The S. O. S. signal of a housekeeper is short on sugar. MARY.

When the nasturtiums go to seed save some of the seed pods for seasoning.

Pick off the seed pods and dry them. Brown paper is as good a drying sheet as anything. Put the seeds in a dry, warm room where they will be undisturbed for several days. When perfectly dehydrated store in tightly covered tin boxes.

Nasturtium seeds can be used, in place of capers in sauce to serve with lamb or fish.

Pickles are given an extra piquancy by the careful use of these spicy seeds. An everyday salad acquires a new interest if a nasturtium seed or two is added to the dressing.

**Menu For Tomorrow**  
Breakfast—Stewed prunes, creamed codfish on toast, coffee.

Luncheon—Green pea soup, toasted crackers, radishes, brown bread, sun-dried cherries, molasses bars, tea.  
Dinner—Salsbury steak, creamed potatoes, string beans, lettuce salad with combination dressing, huckleberry pie, coffee.

**My Own Recipes**  
When making soup of fresh green peas, it's a good idea to cook the pods as well as the peas. The pods have just as sweet a taste and the taste is all that is used in soup. As many peas will not be needed if the pods are also used.

**Molasses Bars**  
1 egg  
2-3 cup molasses  
1-2 cup lard  
1 cup bran  
2 cups white flour  
1-2 cup milk  
1 teaspoon soda  
2 cups cocoanut  
Beat egg well. Add molasses. Add lard softened but not melted. Dissolve soda in milk and add alternately with dry ingredients. Add cocoanut. Spread very thinly in a buttered and floured dripping pan and bake 10 minutes in a hot oven. Cut in bars and remove from pan.

**Huckleberry Pie**  
3 cups berries  
3-4 cup sugar  
1-8 teaspoon salt  
1-3 cup flour  
1-8 teaspoon ginger  
Mix sugar, salt, ginger and flour with berries. Line a deep pie dish with pie crust. About 1 tablespoon

of flour should be sprinkled evenly over the under crust before the berries are added. Add berries and dry ingredients. Cover with top crust and bake 45 minutes in a moderate oven.

## One More Effort to void Real Conflict in Lower California

By Associated Press Leased Wire

Mexical, Lower California, Aug. 9.—One more effort will be made by the Mexican provisional government to avert an armed clash with the forces of Governor Estenban Cantu of Lower California according to sources usually well informed, according to these sources two commissioners were expected here today from Mexico City to seek final conference with Governor Cantu.

It was also stated that federal troops to the number of 4700 have been mobilized and are held at suitable points for transportation campaigns by land and sea having been outlined for their use if necessary.

## AUTO PARKS IN OTHER WESTERN CITIES

Several cities in Montana maintain auto parks. Bozeman has had one for three years, containing a two-room service building. Missoula is just finishing a new park for travelers, equipped with stoves, benches and telephone service. Helena's records show that 10,981 cars stopped at its auto park last season.

The state of Washington contains a number of new camping grounds. Spokane has just opened one near Coeur d'Alene Park; it has shower baths for men and women, electric lights, slot-machine gas stoves, open hearths, and other provisions for comfort. Walla Walla has a 7-acre tourist park, and Ellensburg has purchased 30 acres for the purpose. Pasco takes care of tourists in a park opposite its court house. Yakima maintains a camp in the state fair grounds.

## NO THOMPSON TAMMANY FOR ILLINOIS.

"I am against Tammanyism in Illinois, and this fair state shall not be the stalking ground of the Tiger." In this declaration Lieut. Gov. Oglesby sounds the keynote of his campaign.

The appeal places the real issue in the Republican state campaign in a nutshell. The thinking people of Chicago know the issue is here, and before primary day arrives they will know it more. Chicago has suffered from gang politics in the past, but never has the organized evil of predatory politics been threatened on the huge Tammany scale until the present time. That is a tribute to the skill of the Lundin-Thompson leaders, but it is not a tribute to the people of Illinois care to pay for by state bankruptcy, business depression, extortion, waste, and social poisoning promised by the extension of Lundin-Thompsonism.

Gov. Oglesby asks: "Shall the people of Illinois continue in control of their party, their affairs, and their government, or shall we become subservient to the Thompson-Tammany machine of Chicago?"

We have no fear they will. The stripes of the Tammany Tiger are recognizable, also its fangs and the stench of its hide. Its lair in Illinois is the jungle where organized vice and public graft and waste are darkest. It cannot live on the open pastures of Illinois.—Chicago Tribune.

## FAIR WORDS FROM MEXICO.

Don Fernando Calderon, Mexican high commissioner, has arrived at Washington with a message of good will harmonized with the friendly utterances of Gen. Obregon. In his first published statement he gives assurances of absolute guarantees for the protection of foreign rights in Mexico hereafter.

"Of course," he reminds Americans, "you must remember that in Mexico as well as here, there are a great many jingoes who are always trying to cause trouble. But the leading men in Mexico today, both in and out of the government, all feel friendly to United States."

Mexico, he realizes, needs the financial help and good will of the United States, just as the latter needs the products of Mexico's natural resources for industrial purposes.

"Thus," he says, "the interests of the two harmonize. Small obstacles, political or otherwise, cannot block our natural and inevitable progress in this respect, and now that the destinies of Mexico are once more in the hands of men who feel their great responsibility, swift development will follow."

It is long since such talk came out of Mexico. It seems to bespeak the sincere purpose of the group now in control of Mexico. If that group succeeds in the present presidential campaign, and if subordinate leaders

## BRINGING UP FATHER.

BY GEORGE McMANUS

acquiesce in the result of the election, the ten-year Mexican problem will be far advanced toward solution.

The situation is so at variance with anything we have come to expect from Mexico that it is almost incredible. Yet the results indicated are not impossible, if the United States government and Americans with big financial interest in Mexico deal with that country in the same fair and friendly spirit it is now showing toward us.

## GOT YOUR GOAT?

Buy a nanny goat and buck the high cost of living.

That is what B. F. Cook of Danville, Ill., is doing. More than that, he is so enthusiastic about the value of goat milk that with the assistance of Arthur Lumbrick, Vermilion county farm adviser, he is going to form a goat club in this city.

"Goat milk," says Cook, "is about three times as rich in butter fat as cow's milk. I would not trade a pint of the milk of my goat for a gallon of the best cow's milk which was ever produced. My goat is furnishing milk enough for her own kid and for three of mine."

Cook's children have nicknamed the nanny "Butter." The name is somewhat of a misnomer so far as her physical properties are concerned, for she is a very docile and easily kept creature.

According to Cook, goats are easily kept and can be taken care of in a very small space in the back yard. During the winter months, he feeds her a small pan of oats three times a day, with a little baled clover or alfalfa. In the spring and summer, when grass is plentiful, much of the dry feed can be eliminated.

"People laugh at the goat," said Cook, "but if my goat could laugh, I think she would have a right to laugh all the dairymen right out of existence. A cow eats about four times as much as a goat, she is a more expensive investment to begin with, the milk is not nearly so nutritious and a goat gives nearly as much as the best cow that ever stepped."

## "MUSICAL GIFT."

What seems mysterious is merely something not yet understood. For instance, the abilities referred to vaguely as the "musical gift."

Professor Carl Emil Seashore has been studying psychology of musical talent at the University of Iowa.

He has analyzed musical talent, and has swept away much of the mystery with which it has been enveloped.

His psychological analysis shows just what factors of musical talent are present or missing in any pupil. Many annual tests prove that instruction does not alter or develop greatly the powers which original tests revealed in the untrained pupil.

This is important. In two ways. Tests may reveal the presence of great talent where it is unsuspected. On the other side, an ambitious girl can discover in good time that her musical abilities are mediocre. The money her parents might have spent on her musical education in hope of a return is saved, and she is kept from wasting years in vain effort.

When musical talent is fully understood many real tragedies will be avoided.

## JUST SUPPOSIN'

There was a Dad—just any common regular Dad—who had a wife and maybe a couple of youngsters and a place commonly known as home, sweet home. Maybe he's the sort of a fellow who spends all his spare moments thinking about business. He's grown into that habit and dog gone it, the whole family have noticed it.

One son, for instance, would like very much to make a pal out of this Dad—but where is the opportunity when Dad spends most of his evenings back in his den or maybe at the office?

So the son gets to drifting out in the evening and his habits become a bit raw-edged. He's not a bad sort of a son, but he misses the Dad he has always hoped to grow up with, and in search of some one of his own sex to

## ADVENTURES OF THE TWINS

by Olive Roberts Barton

NO. 5 APPLE STREET.  
"RAT-A-TAT-TAT," went Tingaling's knuckles on Wiggily Worm's front door.

He was collecting Wiggily's rent, and Nancy and Nick were with him. As Wiggily lived in No. 5 Apple St., Old Orchardville, the twins had had to ask the Green Shoes to make them about the size of an apple seed. Tingaling, too—for Wiggily's front door wasn't much larger than a tooth mark.

"Come in," came Wiggily's voice in.

"All right," called Tingaling cheerfully. "I'll come right back and bring Nancy and Nick along. Have your rent ready, Mr. Wiggily, have your rent ready!"

But the floor of the hallway was very spongy and soft, and at every step the newcomers sank down over their shoe tops.

"What's this? What's this?" sputtered Tingaling when he finally arrived at the sitting-room door. "Why don't you sweep out occasionally and not let so much rubbish collect? My,

# JOHNSON SAYS WORLD WATCHES PROHIBITION MOVEMENT IN AMERICA

(Continued from Page 1.)

he will have a hand that will gain a reputation throughout the state. His band is composed of 46 musicians—men and women. They were all present at the Assembly. The band carries the name of Kable Brothers Co. band, but only a small number of the members are employed by the Kable Brothers. Some are farmers, some clerks, some high school people, some are instructors in the college located in that town. Myers, the bandmaster, was for four years with the famous Sousa band. He knows how to keep a band to the top notch. His work here Sunday evening gave evidence of that. Myers plays high-class music and does it well.

Another strong feature of the organization are the soloists and the quartet. The quartet which pleased so well in the afternoon concert is composed of Mr. and Mrs. West and Mr. Stover and Miss Stover and is known as the "Western" quartet. During the evening Mr. Carl Dahl, tenor and Mrs. Agnes Hammar Rees, soprano, sang a duet and responded to an encore. Mr. Stover and his sister, Miss Stover, are children of returned missionaries, and both talented musicians. The soloist with the band is Carl Dahl and he rendered a very pleasing solo during the afternoon concert.

## Dixon Orchestra Tonight.

Assembly patrons will be entertained tonight by a concert given by the Dixon Symphony Orchestra of Dixon. This orchestra is a favorite with Assembly patrons, especially with the "home folks." It is predicted that another large audience will attend the assembly this evening to hear this splendid local organization. Director Will Smith has prepared a first-class program and it goes without saying that the entertainment this evening will be of a high standard. The quartet will also sing and Miss Lona Ruth Scott will sing a solo.

## Tomorrow's Events.

Miss Katherine M. Porter, will deliver a lecture Tuesday afternoon entitled, "In France with the A. E. F." Doubtless this lecture will be interesting and entertaining. It is said that Miss Porter is a splendid speaker.

Tuesday evening will be given over to Davis, the Master Magician. Those who have attended the entertainments given by Davis praise him very highly. Just before the program of magic, Miss Margaret Josephine Penick will give some of her clever readings and impersonations.

## Assembly Notes.

Nearly every hamlet, village and city was represented on the Assembly grounds Sunday. Every camper on the grounds had visitors. Sterling sent her usual number for a Sunday program. The crowd was so large that Landford Mackley ran out of "grub" early in the evening. His cigars were all sold out before sun went down, and several times he had to call for an additional supply of ice cream.

Miss Millicent Hoffman, organist, and Miss Eigne Anderson, leading soprano of the Church of the Ascension, Chicago, of which Dr. Derr, platform manager and President of the Assembly is the pastor, are the guests of Dr. and Mrs. Derr.

Every room in the hotel is taken and on Sunday it was necessary to turn people away.

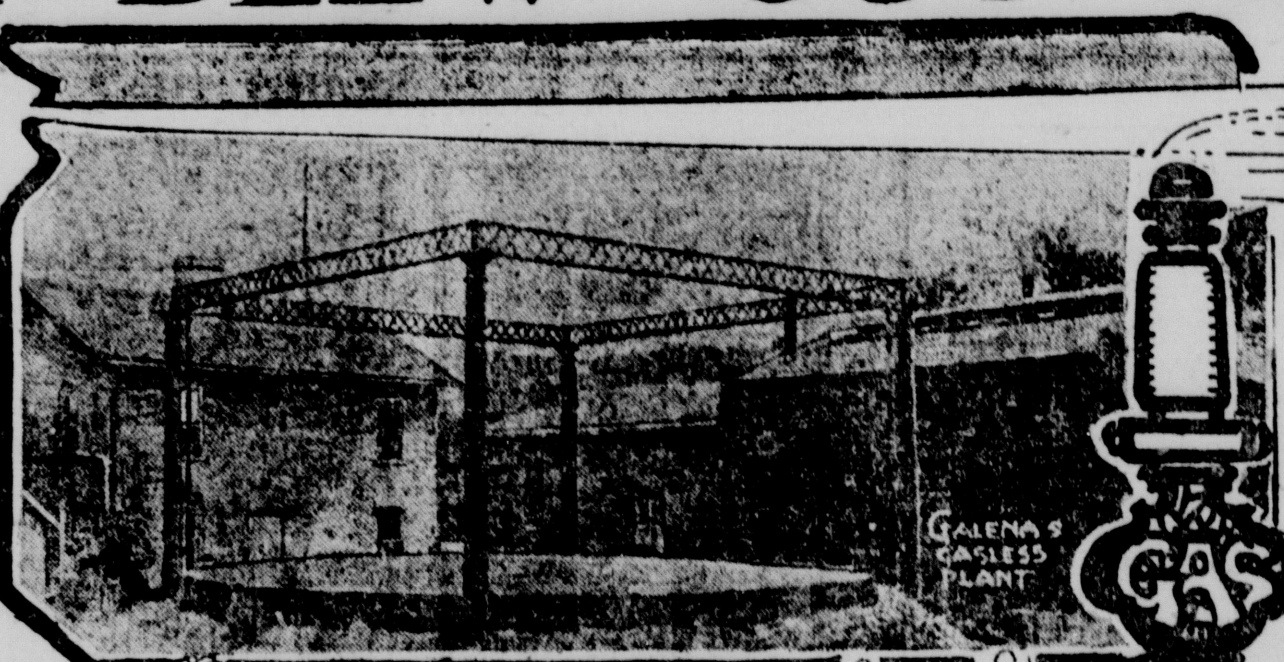

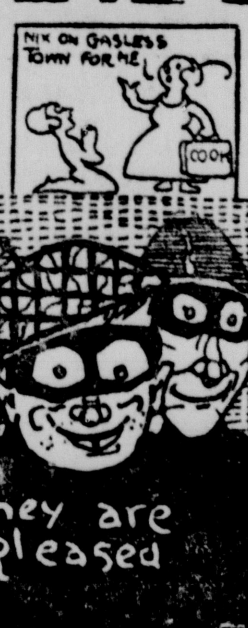

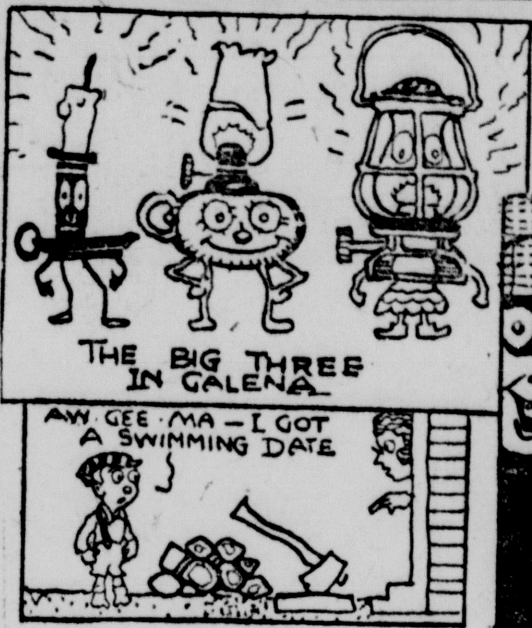

Miss Marjorie Green, of Sterling, was an over Sunday guests of Miss Lena Anderson of Sterling who is camping with her mother.

## Saturday Evening.

On Saturday evening the patrons of the Assembly witnessed one of the best entertainments of the season. The Girls of the Pythian School and home at Decatur came here to give a concert and they did so well that hundreds expressed themselves that "it was one of the best attractions so far this season."

The girls' orchestra made a decided hit. Their work is remarkably clever considering the ages of those who compose the orchestra. The ages of the young people range from 10 to 17 years. The director, Miss Winnifred Minturn, is one of the most accomplished musicians of Decatur. She has complete control of her organization. The Girls Quartet did some very fine singing, rendering some very high-class selections. The program given

# GALENA BLEW OUT THE GAS

Galena has blown out the gas!

Since Ulysses S. Grant, once the town tanner, gave up his private practice to take up that little task of preserving the Union, as related in all school histories, nothing of such nation-wide interest has emanated from this river city of northwestern Illinois. Galena, the oldest city in the state, learned in a few days that one of the most elusive and necessary servants of modern man is gas.

Galena hasn't quite gone back to the tallow dips and to hewing down firewood in the manner of its pioneer settlers, but that, perhaps, is partially due to the fact that said pioneers had used up most of the afore-mentioned firewood and had died off, taking with them their secret of making tallow dips of the kitchen leavings.

## Refuse to Cook for Men Who Made Town Gasless

Through the hot summer days its housewives sweeter at their cooking over coal or wood fire ranges—bought at 1920 prices—those who have any stoves at all. The women who just won't roast themselves cooking with antique equipment for men who were not foresighted enough to save the gas before it was too late, have fled to other cities. In practically every kitchen, beside the insufferably hot coal range or the smelly oil stove, stands a gas range, like the little tin soldier, covered with dust and rust, awaiting the return of gas.

As evening's shadows melt into night's darkness, the Galena windows are not suffused with the mellow glow from the gas mantle. Not to any

appreciable extent are they suffused with any kind of glow. Kerosene lamps smoke and flare in hundreds of households, and when there is a sudden gust of wind, the lamp chimneys blacken or crack as the mood and wind strike them. And the householders, accustomed for years to dependable gas light, slam down their newspapers or books in despair and go to bed early. Summer daylight has helped some, but as the months of early darkness approach, the gloom of the Galena populace thickens to a consistency that could be cut only with a knife.

## Great Joy for the Spooners

Of course, spooners are excepted. They don't care how dark the front parlor is at night. No complaint has been registered by burglars, either. Galena is not the City of Dreadful

Night, but the rate of peevishness has risen to an alarming height. The illuminating situation is bad enough, but it isn't as provoking as the cooking problem. Going back to the dark ages involves more than having to do without light by which to sit up late. Maybe what helped make the Dark Ages dark was the digestion ruined by cooking over primitive fires, burning up the temper of the cook and the diner. The modern housewife, accustomed to a modernly equipped kitchen, with a handy gas stove that can be turned on when wanted, and turned off when not.

Keeping the Old Gas Stove Ready

Women, as the chief sufferers, are keeping their old gas stoves ready for the joyous moment when the gas is miraculously restored. A Presidential candidate, who could guarantee the return of the old reliable gas, could carry Galena unanimously, regardless of his stand on suffrage, prohibition or the League of Nations. The women, who have had to go back

to the coal range or the oil stoves, which flavor the food with a touch of petroleum, are in rebellion, and those who have shiny, new electric cookers are not convinced and handle their wired stoves without enthusiasm. That ever-ready and always reliable gas flame that will broil a 1920 steak just to the right nicety, or turn out a pie that will smother Friend Husband's grinch in its very lusciousness, is worth the price, they feel, and Home without it has a big, big void.

Galena was not always Gasless Town. It didn't voluntarily elect it-

self as a horrible example of what a modern city is like when it reverts to the Light of Other Days. It had gas for illuminating and fuel from the year that its then leading citizen, who had become General U. S. Grant, settled that little matter with Lee at Appomattox, until February, 1920. And persons with even the shortest of memories recall that that was a right cold February.

## Long Story Told in Short

How Galena stepped on the gas until it hurt is a long story, but it can be recounted briefly to illustrate this tale which has no gas illumination. The year Grant finished the job under the old apple tree, the possession in Galena of a gas-illuminated house was greater evidence of a regular bank balance than the ownership of a gas-propelled limousine is today. Gas retailed then at \$5 a thousand cubic feet, and that rate was not considered excessive.

As gas manufacture became more scientific and more economical, the local gas company voluntarily reduced the rate until 1912, when Galena business houses and users of gas ranges paid only \$1.50 a thousand, while light consumers got off with a charge of \$1.65. In 1914 an explosion necessitated rebuilding much of the plant at great expense. Then came the world war—prices for coal, coke and oil soared and shipments became increasingly difficult to obtain. The Illinois Public Utilities Commission,

while recognizing fully the company's difficulties, reduced the gas rate to \$1.40 net for the first thousand cubic feet, the rate ranging downward a \$1.20 a thousand to large consumers. The prices for essential gas-making materials increased to the point when the operators had to seek relief. The Utilities Commission, in view of the facts, raised the rate to \$1.65.

## Plant Went Into Receivership

But this new rate failed to make gas selling a paying proposition, as the plant went into the hands of a receiver. Experts called in by the receiver reported a big deficit. The Galena citizens saw the light, they felt they soon weren't going to see, and petitioned the Utilities Commission to do anything—even to raising the rates—if they only could be assured of gas. But the Commission denied their plea and the plant, the second oldest in the state, was forced to shut down.

And then, Galena's Gasless Age began. Fortunately for the residents this city does not have the big acreage of apartment houses to be found in scores of larger cities all over the country. In most of Galena's homes there are chimneys and flues, while in the majority of homes in cities like New York, Brooklyn, Boston, and Chicago, there is no provision for the coal stove. Loss of gas service in such circumstances would mean actual cooked food deprivation before other means of cooking could be provided.

The battle resulted from an attempt by police to arrest a sailor on a charge of drunkenness.

New York—John C. Slavin, actor, is in a hospital suffering from a fractured skull after having fallen unconscious near the home of Manager John J. McGraw, of the New York Giants.

Roy Glesener of Eldena was a business visitor in Dixon Saturday.

# America's Athletes in Olympic Games

THEY'LL TELL THE WORLD

BRAINS THAT ARE GUIDING U. S. OLYMPIC BOYS

MATT HALPIN

LAWSON ROBERTSON

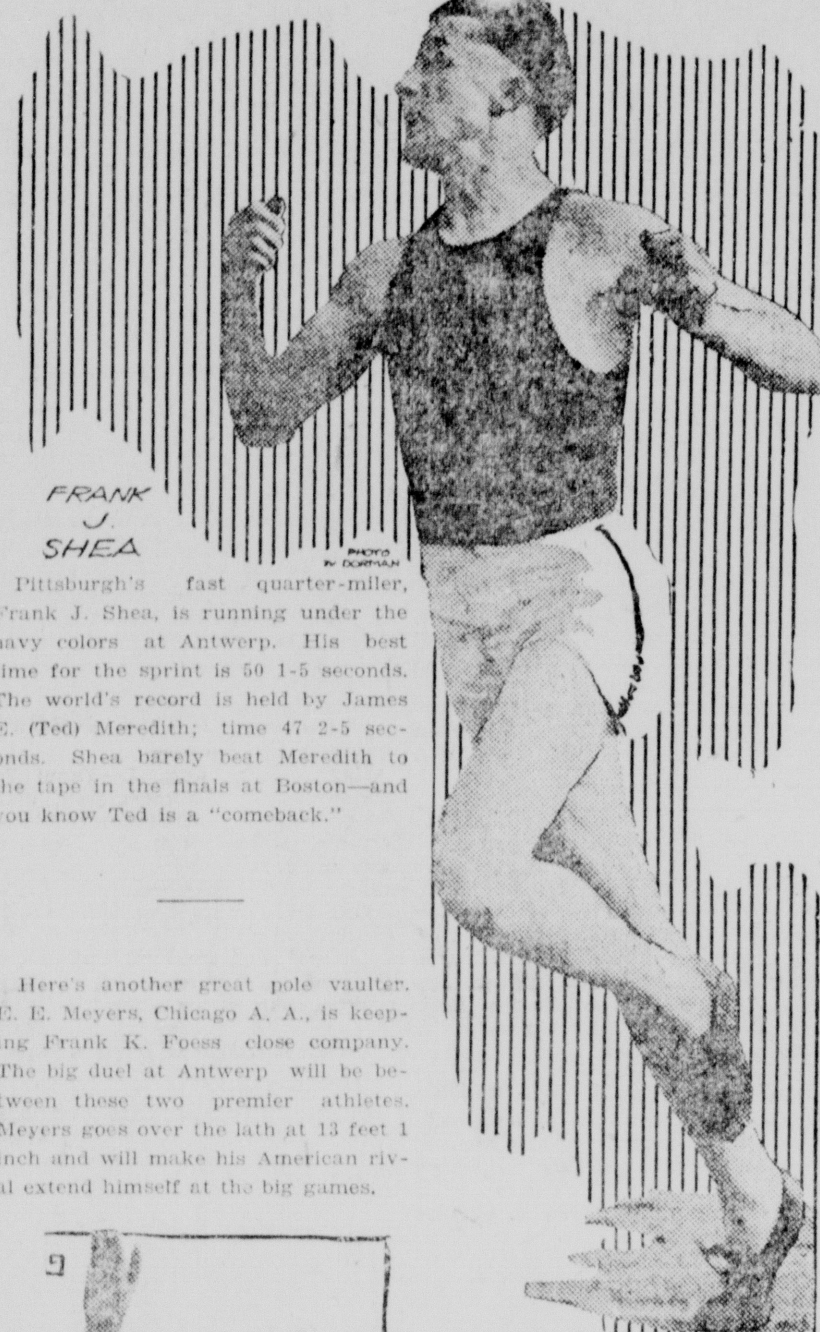

JACK MOAKLEY

MARTIN DELANEY

H. MERLE WEBB

FRANK J. SHEA

Pittsburgh's fast quarter-miler, Frank J. Shea, is running under the navy colors at Antwerp. His best time for the sprint is 59 1-5 seconds. The world's record is held by James E. (Ted) Meredith, time 47 2-5 seconds. Shea barely beat Meredith to the tape in the finals at Boston—and you know Ted is a "comeback."

PAT RYAN

Here's Pat Ryan, one of the "whales" of the Olympic team. The other two "whales" are Matt McGrath and Patrick McDonald, the giant coppers who are members of New York's "finest." Ryan is a New York contractor. He holds the world's record in throwing the 16-pound hammer, his great heave being 189 feet 6 1/2 inches. The three "whales" are expected to sweep the weight field clean and score 22 points for the U. S. team at Antwerp.

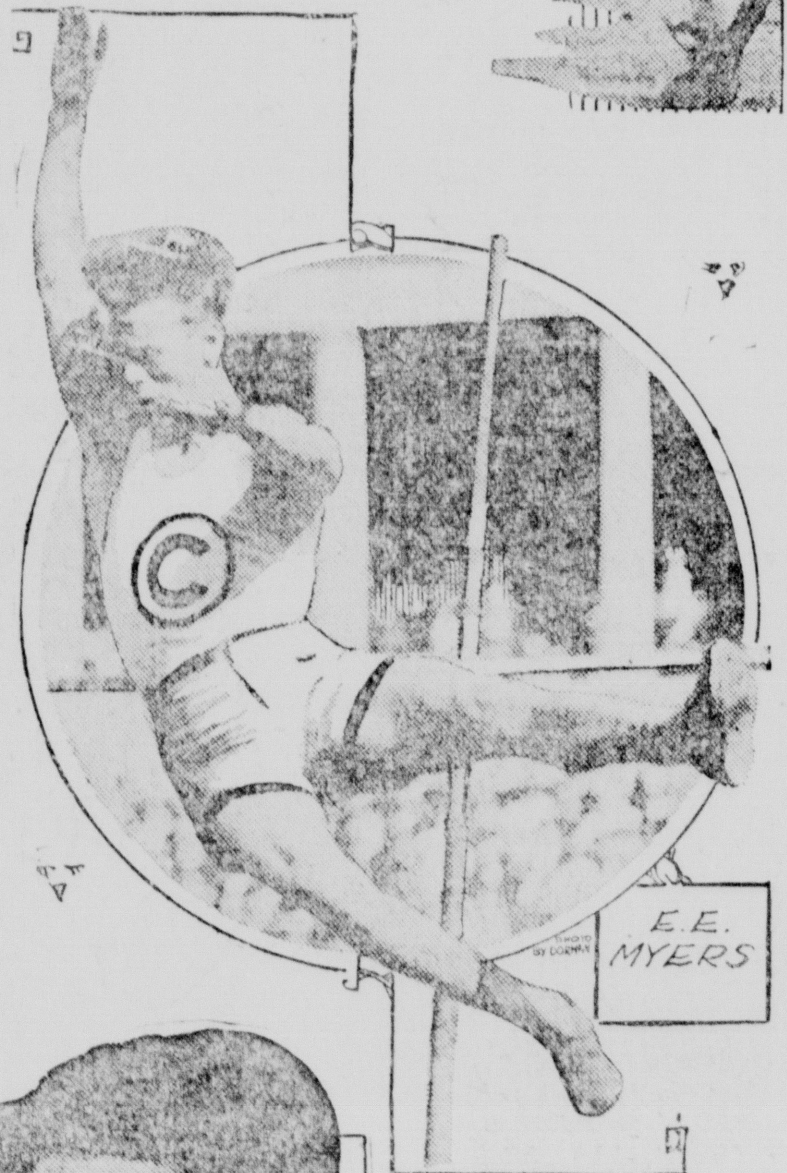

LOREN MURCHISON

Much is expected of Loren Murchison, the new rock A. C. man, in the Olympic sprints. He's a 9 4-5 second century dasher. Loren quits the holes so fast that he leaves daylight between himself and his rivals the first jump. Murchison was formerly of St. Louis and prior to that was a Lone Star product. He beat Paddock in the final trials at Boston.

GUSTAVUS T. KIRBY

When the American Olympians called the \$200,000 fund necessary to defray their expenses was about \$25,000 short. They left Gustav Kirby, head of the Olympic committee, at home to gather the shortage of necessary "beans." Gus is proving equal to the occasion. Kirby has already made one trip abroad in behalf of the committee. It was Gus who engaged the schoolhouse near Antwerp which was fitted up into dormitories for the Yanks while they are in Belgium.

E. E. MYERS

Here's another great pole vaulter. E. E. Myers, Chicago A. A., is keeping Frank K. Foess close company. The big duel at Antwerp will be between these two premier athletes. Myers goes over the bar at 13 feet 1 inch and will make his American rival extend himself at the big games.

F. F. LOOMIS

Frank F. Loomis, Chicago A. C., will skim timbers in the 400-metre hurdles.

DESCH MEANIX

The former Newark schoolboy, now of Notre Dame University, August Desch, equaled the world's record in the 440-yard hurdles at the eastern try-outs in Philadelphia this spring, but he toppled the last one and the record does not stand. He romped over the sticks in 54 3-5 seconds. William H. Meanix of the Boston A. A. is shown in the picture coming up behind Desch. Meanix holds the world's record.

CHAS. PADDOCK

Charles Paddock, Los Angeles A. C., is entered in the 1000 and 220-metre sprints and the 400-metre relay event.

MORRIS KIRKSEY

H. H. BROWN

H. H. Brown, Boston A. A., is a member of the 3,000-metre team. He cleaned up in the final trials at Harvard stadium.

JOHN MURPHY

John Murphy, Multnomah A. C., Portland, Ore., is our high jump expert. He does 6 feet 4 1/2 inches.

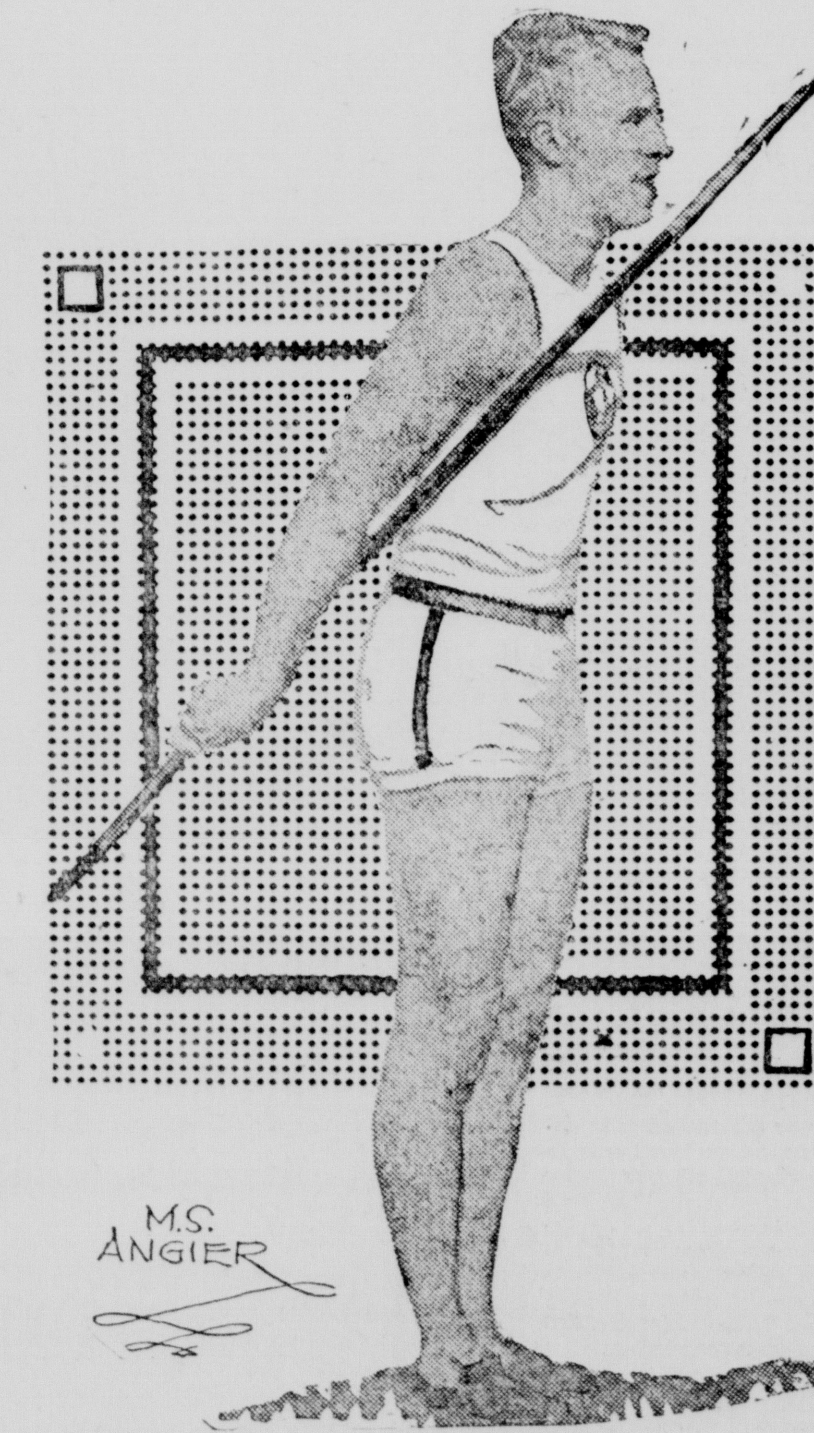

J. G. SIMMONS

J. G. Simmons, New York A. C., is America's best bet in the 10,000 metre cross country run.

JAS. MCEACHISON

James McEachison, Olympic club, San Francisco, Ore., throws the 16-pound hammer and the 56-pound weight.

M. S. ANGIER

John Murphy, Multnomah A. C., Portland, Ore., is our high jump expert. He does 6 feet 4 1/2 inches.

The United States has always had a weak entry in the javelin event at the Olympics. Norway, Sweden and Finland have always excelled. At last Americans are learning to cast the spear. M. S. Angier of the Illinois A. C., Chicago, recently broke the American record with a throw of 192 feet 10 3/4 inches.

## Directors Chamber Commerce Instructed to Get Office Rooms

The board of directors of the Dixon Chamber of Commerce met at noon Friday at a luncheon at the Dixon Inn. Several matters of importance were discussed and the committee previously named to secure suitable office quarters and equipment for Secretary Carroll King, were instructed to proceed with their plans. A general meeting of all members of the chamber will be called in the very near future when a program of work will be outlined. C. H. Kessler, landscape architect of Kansas City, addressed the members relative to the Black Hawk Trail through this section. Mr. Kessler is spending his vacation in this vicinity in the interests of the trail.

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful headache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.

There will be a meeting of presidents, secretaries, chairmen and vice-chairmen of Kiwanis committees for the Illinois and Eastern Iowa district at the LaSalle hotel August 11. It is planned to divide this district into subdistricts and elect lieutenant governors to handle the work in each of them as the governor of this district is handling them. If this plan works all right it will probably be adopted by international Kiwanis.

For sale—Transportation value \$51.00. Will sell for \$25.00 on the palatial steamships Manitou and Puritan. For further particulars call A. G. Evening Telegraph. 11

## Confesses to Theft to Keep His Family from Abject Poverty

Chicago, Aug. 7.—George W. Bingham, commercial teller and general auditor of the Schiff & Company State Bank was taken into police custody today, following an investigation which revealed a shortage of \$1,450.22 in his accounts.

Bingham confessed to taking the money. He said he needed it to meet expenses to keep his wife and two daughters "from poverty". His salary at the bank was \$165 a month, he declared, and his rent averaged from \$36 to \$53 a month, grocery bills about \$50 and meat bill about \$25.

U. S. SHIPPING BOARD FLEECED IN PORTS OF SOUTH AMER. LANDS

Investigator Saved \$75,000 per Month When He Hit Buenos Aires

Buenos Aires. — The United States Shipping Board has been defrauded, of many thousands of dollars through practices which amount to "systematic fleecing" of Shipping Board vessels in the River Plate trade, according to reports to the board by Captain G. L. Carden, special representative of the Shipping Board Emergency Fleet in Buenos Aires.

Captain of Engineers, L. C. Farwell, arrived here a month ago to take charge and protect the Board's interests. "When I arrived here" he said to The Associated Press correspondent, "ship chandlers, repairmen and others connected with shipping industry seemed to be in a general agreement to mulct the Shipping Board vessels to the limit."

"The Shipping Board is rich" they said. "We will get what we can." Accordingly the Board was charged for things received until it became so obvious that I was ordered to this port to take charge. In receiving my orders I was told that while the Board appreciated the fact that expenses of all sorts were high in Buenos Aires and Montevideo, still, it felt that there must be something wrong when their vessels paid such prices, for instance, as \$4 a pound for butter.

Prepared For Harvest.

"It seems that the practice was, when a Shipping Board vessel appeared in the roads and signalled its desire to enter, for those who had hopes of selling the vessel supplies to prepare for a plucking of the golden goose. The result was that when the vessel cleared bills were presented to the steamship agents, and

promptly paid, since it was Shipping Board money, for every conceivable item at prices based on nothing except a desire to obtain easy money.

"Our arrival put a quick and effective stop to all this. We now have all Shipping Board vessels calling at this port, report directly to us, we alone having the right to authorize purchases of supplies or expenditures for repairs. All repairs at present must be made according to specification and under bond. Every bill must have my signature before it will be paid, and the result of this has been a saving of as much as 50 per cent on many items. Conditions formerly were so bad that I have even heard that in some cases food was thrown over-board in order to create a shortage so that purchases could be made."

Saved \$75,000 in Month.

During the first four weeks of the supervision provided by the new arrangement was officially estimated that a saving for the United States government, of \$60,000 for food alone and \$25,000 for repairs was made. As a result of this campaign at least one arrest is expected when a certain ship arrives at New York.

There are 23 lines under the Shipping Board which have vessels calling at ports in this jurisdiction. There are on an average of 22 vessels on hand at all times. The average cost for maintaining these is from \$1,500 to \$2,000 each per day. Before the

war an American vessel on the River Plate was a curiosity.

**Board Had no Offices**

"Since the Shipping Board had no offices of its own to take charge of its vessels in ports through the world," continued Captain Carden, "it was usually necessary to entrust the care of its ships to established agencies. Many of these steamship agents had already for years been the representatives of foreign and possibly competing lines. The result has been that in many cases American vessels have been held back while other ships were given the preference, causing the expenses of American ships to mount up through port charges and lost time."

"In all River Plate ports, losses from this source have been very great as well as those through overcharges for supplies, repairs and so forth. There is one case on record where an American ship was held up for months for repairs and charges against her. But we are seeing it to now that Shipping Board vessels get into port and get away again without unnecessary delay. The saving to the Shipping Board from this attention undoubtedly will be several hundred thousands dollars annually."

"Agents who have the interests of other nationalities more at heart than American are coming to learn that they are not entitled to more than a legitimate profit from American vessels and must handle them efficiently if they want American business."

Captain Carden and his assistant,

Captain Farwell, are officers of the United States Coast Guard, detailed on Shipping Board service. During the war Captain Carden was port captain of New York and had charge of loading more than 345,000,000 tons of high explosives, making a record. It is said, of never having had an accident of lost a man.

Two Boys Drowned in Sink Hole at Thayer

Springfield, Ill., Aug. 7.—Returning to swim, after another group of boys had been driven away, two little boys, Norman Walter, 9, and John Maynard, 8, were caught in a sink hole in a stream at Thayer, near here yesterday afternoon and drowned. Efforts of the men who had driven the other boys away to resuscitate them failed.

Counterfeit "Bond" Strips Being Used

Washington, Aug. 7.—A new counterfeit "industry" has followed in the wake of prohibition.

"This industry," says Chief Moran of the Treasury Secret Service, "is the counterfeiting of the strip label venue stamp that goes over the corks, or that used to go over the corks, or whisky bottled in bond. Those engaged in the manufacture of whisky are prepared to use those counterfeit stamps and we have arrested three gangs already for doing it."

At present the main problems of the Secret Service, however, are to check note-raising, which Chief Moran says has increased to an "alarming extent" in the last year and the forgery of government checks, which he adds "has become almost an epidemic."

Records of the Secret Service show according to Mr. Moran more arrests and investigations during the last year than for any similar preceding period.

Mrs. Oris Webster and two children, of Bangor, Mich., are visiting at the Chas. E. Miller home in North Dixon.

May Arrange Library Co-operation to Let Books be Exchanged

Chicago, Aug. 7.—Borrowing a book from the public library in one city and returning it to the library in the next town where he makes a stop may be arranged for the benefit of the traveling men's association has appointed a committee to see what can be done along this line and has asked the American Library Association to appoint a similar committee to confer.

The library association, accepting the invitation, has just constituted Lowe, vice-librarian of the Brooklyn public library, as its chairman.
